Circular Economy and Cleantech Ecosystem

15.9.2023

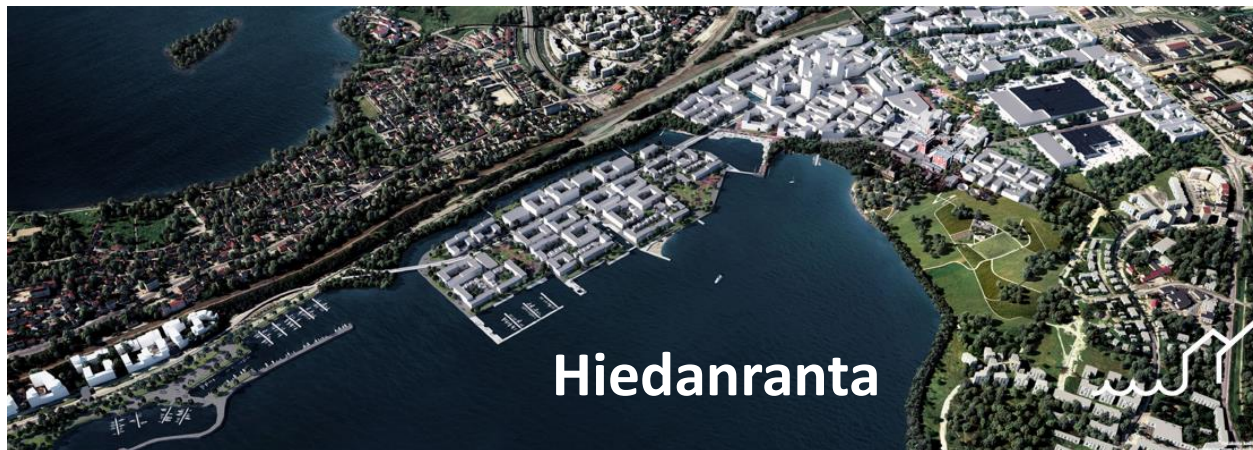

Pirkko Eteläaho, Business Tampere

Circular Economy and Cleantech Ecosystem

- Cross-sectoral ecosystem for
 - Companies operating in bio & circular economy and cleantech sectors
 - Companies offering products or services related to green transition
 - Companies interested in resource efficient low-carbon development of their own operations and value/service chains
- Ecosystem companies are involved in various sectors i.e. energy, industry, material management & recycling, bioeconomy, built environment, water sector, logistics and mobility, ICT and AI
- Tampere regional climate partnership engages companies and communities in pursuing a carbon-neutral city region in cooperation with the Sustainable Tampere 2030 program – 116 partners already on board!

Examples of key platforms connecting companies, R&D and public sector

What do we offer?

Matchmaking and networking events

Funding advice and growth support

Piloting possibilities, scaling support and cocreation

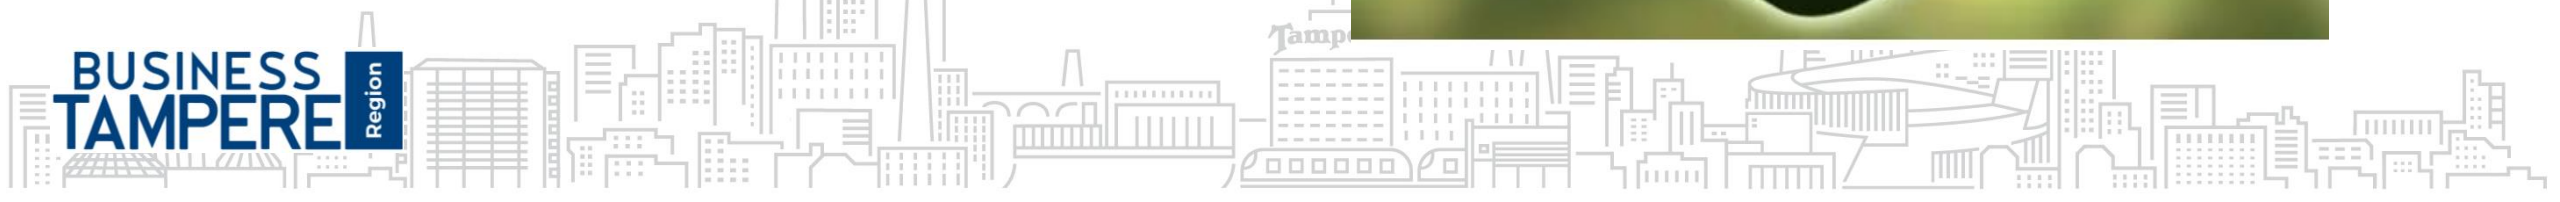

Visibility and support for climate actions

Peer support from other ecosystem members and climate partners

National and international co-operation networks

Coming up

Challenge competition call for pilots opening in August-September (CE of rigid plastics, IoT platform utilization in CE, ...) - 10 000 euros support for piloting available!

21.9. Zero Emission day – climate action challenge and event

Nordic Battery Thursday with Business Finland, Business Sweden and Innovation Norway (date TBD)

31.10. Symbiotic b2b partnerships event related to bio-based side streams

And a lot more on the way!

Examples of past events in 2023

Green Transition series: 4.4. Possibilities arising from the energy drift

Green Transition series: 25.4. Responsibility in communication

11.5. Training for determining CO2 footprint and handprint (for climate partners)

12.5. Possibilities and challenges of CE related funding opportunities for companies, public sector & R&D operators

Multiple export and funding related events
